**Applicable law and language used:** the Contract is governed by French law. The language applicable to the Contract is French, which takes precedence over any translation of the document.

**Subrogation:** As authorised by Article L 121-12 of the Insurance Code, the Insurer may take action against the party responsible for the Loss to obtain reimbursement of the compensation paid to the Member.

**Plurality of insurance policies:** In accordance with the provisions of Article L121-4 of the Insurance Code, when several insurance policies are taken out without fraud, each of them produces its effects within the limits of the cover provided by each policy, and in compliance with the provisions of Article L121-1 of the Insurance Code.

**False declaration:** Any false declaration made by the Member in the event of a Claim exposes him/her, if his/her bad faith is proven, to the nullity of his/her membership and therefore to the loss of his/her right to cover, although the insurance premium is retained by the Insurer.

**Data Processing, Data Files and Individual Liberties :** The Member is expressly informed that his/her personal data is processed by the Insurer and the Broker for the purposes of executing the Guarantee taken out. The Insurer and the Broker act as joint data controllers within the meaning of the European Data Protection Regulation.

Prescription may be interrupted in particular by the appointment of an expert following a Claim or by the sending - by the Insurer or the Member to the other party - of a registered letter with acknowledgement of receipt.

Article L114-1 of the Insurance Code: «All actions arising from an insurance contract are time-barred after two years from the event giving rise to them. However, this period does not run :

1° In the event of a concealment, omission, false or inaccurate statement about the risk, from the day the insurer became aware of it;

2° In the event of a claim, only from the day on which the persons concerned became aware of it, if they prove that they were unaware of it until then. Where the insured's action against the insurer is based on recourse by a third party, the limitation period only runs from the day on which the third party brought legal proceedings against the insured or was compensated by the insured. [...]»

Article L114-2 of the Insurance Code: «The limitation period is interrupted by one of the ordinary causes of interruption of the limitation period and by the appointment of experts following a claim. The interruption of the limitation period may also result from the sending of a registered letter with acknowledgement of receipt by the insurer to the insured in respect of the action for payment of the premium and by the insured to the insurer in respect of the settlement of the indemnity».

The ordinary causes of interruption of prescription, referred to in Articles 2240 to 2246 of the Civil Code, are a writ of summons, even in summary proceedings, a commandment or seizure, as well as recognition by one party of the right of the other party.

# 1. INDIVIDUAL ACCIDENT

## DEFINITIONS SPECIFIC TO INDIVIDUAL ACCIDENT COVER

### Beneficiaries

The person or persons who receive from the Insurer the sums due in respect of a claim. In the event of the Insured's death, unless another person has been designated by the Insured, the sum provided for will be paid:

- if the Insured is married: his/her spouse who is not legally separated, nor divorced, failing which his/her children born or unborn, living or represented, failing which his/her heirs,
- if the Insured is the signatory of a PACS, his/her partner, failing which his/her heirs,
- if the Insured is widowed or divorced: his/her children, failing which his/her heirs,
- if the Insured is single: his/her heirs.

In all other cases, the other sums are paid to the Insured who is the victim of the accident.

**Any person who intentionally caused or provoked the loss is excluded from cover.**

### Bodily injury

Notwithstanding the definition given in the section Common definitions of Insurance and Assistance cover, «bodily injury» refers to any bodily harm that is not intentional on the part of the victim and that results from the sudden action of an external cause.

By extension to this definition, pathological manifestations that are the direct consequence of this bodily injury are covered.

### Accidents include

- injuries caused by fire, steam jets, acids and corrosives, lightning and electric current;
- asphyxia due to immersion and asphyxia due to unexpected absorption of gases or vapours;
- the consequences of poisoning and bodily injury caused by the unintentional absorption of toxic or corrosive substances;
- insolation, congestion and freezing caused by shipwrecks, forced landings, collapses, avalanches, floods or any other accidental event;
- the direct consequences of animal bites or insect stings, excluding diseases (such as malaria and sleeping sickness), the primary cause of which can be traced back to such bites or stings;
- injuries that may occur during scuba diving, including those caused by hydrocution or decompression;
- bodily injuries resulting from assaults or attacks of which the Insured is a victim, unless it is proven that he/she took an active part as perpetrator or instigator of these events;
- the physiological consequences of surgical operations, provided that they were necessitated by an accident covered by the policy.

### Accidents do not include

- ruptured aneurysms, myocardial infarction, cerebral embolism, epileptic seizures, meningeal haemorrhage.

### Permanent disability

Presumed permanent impairment of the Insured's physical capacities. Its extent is quantified by a rate determined by reference to the Social Security Invalidity scale.

## OBJECT OF THE GUARANTEE

We guarantee payment of the indemnities defined below, which are provided for and the amount of which is set out in the Table of Benefits, in the event of bodily injury to the Insured.

## NATURE OF BENEFITS

### Death

If, within a maximum period of 24 months from the date of the accident of which the Insured was a victim, the accident results in the death of the Insured, we guarantee payment of the capital sum, the amount of which is set out in the Table of Cover, to the person or persons designated as beneficiaries in the Application Form.

When, prior to death, the same accident has given rise to the payment of compensation for permanent disability in application of the following conditions, the capital sum will be reduced by the amount of this compensation.

The officially recognised disappearance of the Insured's body as a result of the shipwreck, disappearance or destruction of the means of transport in which he/she was travelling, will create a presumption of death at the end of a period of one year from the date of the accident.

However, if it is established at any time after the payment of compensation for the disappearance of the Insured that the latter is still alive, the sums unduly paid in this respect must be reimbursed to us in full.

### Permanent disability

If the Accident results in Permanent Disability, we will pay the Insured a maximum indemnity corresponding to 100% of the Social Security disability scale.

If the Disability is only partial, the Insured is only entitled to a fraction of the indemnity proportional to the degree of disability.

Infirmities not listed are compensated according to their severity compared to that of the cases listed.

The compensation is contractual and is determined according to the rules set out above, without taking into account the age or profession of the Insured.

The degree of Disability will be established at the time when the definitive consequences of the Accident can be determined with certainty, and at the latest, unless otherwise agreed between the Insured and us, at the end of the period of one year from the date of the Accident.

Death and disability cover cannot be combined when they result from the same accident.

### Multiple disabilities

When the same Accident results in several distinct disabilities, the main Disability is first assessed under the conditions set out above, the other disabilities then being assessed successively, in proportion to the capacity remaining after the addition of the previous ones, without the overall rate exceeding 100%.

The absolute functional incapacity of a limb or organ is assimilated to the loss of that limb or organ.

The loss of limbs or organs out of use before the accident does not give rise to any compensation. If the Accident affects a limb or organ that is already disabled, the compensation will be determined by the difference between the condition before and after the Accident. In no case may the assessment of the injuries resulting from the Accident be increased by the state of Infirmity of limbs or organs not affected by the Accident.

Insofar as they are the consequence of an insured Accident, nerve disorders and injuries can only be taken into consideration if they are manifested on examination by clearly characterised clinical signs.

## 1.1 SPECIFIC EXCLUSIONS TO PERSONAL ACCIDENT COVER

In addition to the exclusions listed under the heading «GENERAL EXCLUSIONS APPLICABLE TO ALL INSURANCE AND ASSISTANCE COVERAGES», we cannot intervene in the following circumstances:

- Accidents caused or provoked intentionally by the Insured, the consequences of his/her suicide or attempted suicide, as well as accidents caused by the use of drugs or narcotics not prescribed by a doctor,
- Accidents occurring when the Insured is the driver of a vehicle and his/her blood alcohol level is higher than that legally permitted in the country where the accident occurred,
- Accidents resulting from the Insured's participation in a brawl (except in cases of self-defence or assistance to a person in danger), a duel, a misdemeanour or a criminal act,
- Accidents occurring while using, as a pilot or crew member, an aircraft that allows you to move through the air, or while practising sports with or from such aircraft,
- Accidents caused by practising a sport in a professional capacity and practising, even as an amateur, any sport requiring the use of motorised mechanical equipment, whether as driver or passenger. The practice of a sport includes training, trials and participation in sporting events or competitions,
- Accidents caused by war, civil or foreign, declared or not,
- Accidents caused by ionising radiation emitted by nuclear fuels or by radioactive products or waste, or caused by weapons or devices designed to explode by modifying the structure of the atomic nucleus.
- Any person who intentionally caused or provoked the loss is also excluded from cover.

## WHAT ARE YOUR OBLIGATIONS IN THE EVENT OF A CLAIM?

In the event of a claim, it is important that we are quickly and fully informed of the circumstances in which it occurred and its possible consequences.

## FORM AND INFORMATION REQUIRED

**You or your beneficiaries, if any, or any agent acting on your behalf must notify ASSUR TRAVEL of any claim in writing or verbally against a receipt, within fifteen (15) days at the latest of the date on which they became aware of it.**

**If the claim is not reported within the time limit specified above, except in the case of fortuitous events or force majeure, we may cancel cover if we can establish that the delay in reporting has caused us damage (article L.113-2 of the Insurance Code).**

This declaration must also provide us with all information on the seriousness, causes and circumstances of the claim and, if possible, the names and addresses of the witnesses and perpetrators responsible.

The claim form must include the following information

- the date, circumstances and location of the accident ;
- the surname, first name, date of birth, address and occupation of the victim(s);
- the initial medical certificate describing the nature of the injuries and their probable consequences;
- if applicable, the police or gendarmerie report, and the names and addresses of the person who caused the accident and any witnesses.

The victim or the victim's dependants must make every effort to limit the consequences of the accident and, in particular, seek the medical care required by the victim's condition.

The agents and doctors appointed by us will have free access to the victim and his treating doctors to ascertain his condition, unless they have justified objections. Any intentional misrepresentation of the date or circumstances of an Accident, duly established and likely to be prejudicial to us, shall entail forfeiture of rights to compensation which, if already paid, must be reimbursed to us.

## CONTROL

You are obliged to submit to the examination of the doctors delegated by us, and our representatives will have free access to you whenever we consider it useful, under penalty of forfeiture of your rights by you or any Beneficiary if, without valid reason, you refuse to allow our representatives to carry out an inspection or obstruct the exercise of this inspection if, after notice given forty-eight hours in advance by registered letter, we encounter persistent refusal on your part or remain prevented from carrying out our inspection.

Any fraud, concealment or misrepresentation on your part or on the part of the Beneficiary of the indemnity, intended to mislead us as to the circumstances or consequences of a claim, will result in the loss of all rights to compensation for the claim in question.

## COMPENSATION REGULATIONS

### DETERMINING THE CAUSES AND CONSEQUENCES OF THE ACCIDENT

The causes of the Accident and its consequences and the degree of disability are established by agreement between the parties or, failing agreement, by two doctors each appointed by one of the parties. If they do not agree on the choice of a third doctor, or if one of the parties fails to appoint an expert, the appointment will be made at the request of the most diligent party by the President of the Tribunal de Grande Instance of the Insured's place of residence with exemption from oath and all other formalities.

Each party will retain responsibility for the fees and expenses relating to the intervention of the doctor it has appointed, with those required for the possible intervention of a third doctor being shared equally between them.

### AGGRAVATION INDEPENDENT OF THE ACCIDENT

Whenever the consequences of an Accident are aggravated by the constitutional state of the victim, by a lack of care due to his negligence or by empirical treatment, by a pre-existing disease or infirmity and in particular by a diabetic or haematic condition, the compensation due will be determined on the basis of the consequences that the Accident would have had in an able-bodied person in normal health undergoing rational treatment.

### PAYMENT OF COMPENSATION

Guaranteed benefits are payable :

In the event of death and permanent Disability, within one month of the submission of proof of the accidental death of the Insured and of the Beneficiary's status, or of the agreement of the parties on the degree of Disability.

Failing agreement by the parties, compensation will be paid within fifteen days of the court decision becoming enforceable.

**Deductible: degree of disability greater than 10%.**

**Under no circumstances may cover exceed €15,000 per person, with a maximum of €75,000 per event.**

## 2. AIRPORT CLOSURE

### DEFINITIONS

Definition of a natural disaster: A phenomenon, such as an earthquake, volcanic eruption, tidal wave, flood or natural cataclysm, caused by the abnormal intensity of a natural agent and recognised as such by the public authorities.

Definition of an airport closure: Total or partial closure of the airport of departure or destination preventing the insured from leaving or returning to his/her country of residence as part of his/her trip for more than 24 consecutive hours.

If the insured is unable to travel on the scheduled date :

- his departure flight to his place of stay, or
- his return flight to his usual place of residence,

as a result of the total or partial closure of the airport of departure or arrival due to force majeure (with the exception of political risks, war, civil war, terrorist attacks, riots and popular movements).

#### Before departure:

- Transport costs (airport/home)

The Company will reimburse, on presentation of original receipts and up to the amounts specified in the Table of Cover, the cost of return transport from the airport to your home after the official announcement of the cancellation of your flight.

Transport costs are defined as the sums paid by the insured to use public transport: taxi, bus, RER, Metro or train.

- Expenses incurred as a result of postponed travel

If the insured is forced to postpone his/her trip and the seller offers this option, the Company will reimburse the insured for the price variation between the price of the new trip and that of the initial trip, up to the amounts specified in the Table of Benefits. Price variation means the difference in price between the new trip and the rescheduled trip, excluding visa and administration fees. This cover is granted to the insured on condition that the new trip is identical to the postponed trip, i.e.: number of people, service provider, duration, destination, services including the season for a Tour Operator or the booking class for an airline.

In all cases, the insured must justify the variation between these two trips by producing an invoice for each trip, giving details of the services provided.

#### At your accommodation:

The Insurer shall bear the defence costs, without deducting them from the amount of cover for the corresponding damage.

If the amount of damages exceeds the corresponding limit of cover, the Insurer will pay the defence costs in proportion to the amount of cover in relation to the amount of compensation due to the injured third party.

**When the insurer is prohibited from providing an insurance contract or service as a result of a sanction, restriction or prohibition provided for by laws and regulations, Or when the insured goods and/or activities are subject to any sanction, restriction, total or partial embargo or prohibition provided for by the laws and regulations».**

## • Subrogation:

In accordance with the provisions of article L.121.12 of the Code des Assurances, the Insurer is subrogated, up to the amount of the indemnity paid by it, to the rights and actions that the Insured may have against third parties responsible for the loss.

## • Prescription:

**In accordance with articles L.114-1 and L.114-2 of the Code, any action deriving from this contract is time-barred after two years from the event that gave rise to it.**

However, this period does not run :

1° In the event of concealment, omission, false or inaccurate statement concerning the risk incurred, from the day the Insurer became aware of it;

2° In the event of a claim, only from the day on which the interested parties became aware of it, if they can prove that they were unaware of it until then.

The limitation period is interrupted by the ordinary causes of interruption (article 2244 of the Civil Code), as well as in the following cases: appointment of an expert following a claim; sending of a registered letter with acknowledgement of receipt:

- by the Insurer to the Policyholder for payment of a premium ;

## • Misrepresentation:

Even if they have no influence on the loss:

**a) Any concealment or intentional misrepresentation at the time of conclusion of the contract or during the term of the contract, when it changes the object of the risk or reduces the Insurers' opinion of it, is sanctioned by the nullity of the contract, under the conditions of article L 113-8 or L 121.3 of the Code des Assurances.**

b) An omission or inaccuracy in the declaration of circumstances shall not render the contract null and void if the bad faith of the insured is not established.

If this omission or inaccuracy is discovered before any claim is made, the Insurer has the option of either maintaining the contract subject to an increase in premium accepted by the policyholder, or cancelling it.

If the omission or inaccuracy is only discovered after the claim has been made, the compensation will be reduced in proportion to the premiums paid compared to the premiums that would have been due if the risks had been accurately and completely declared (Article L113-9 of the French Insurance Code). The rate taken as the basis for this reduction is that applicable either on the date when the fact should have been brought to the Insurer's attention in the case of an omission, or on the date when the fact was notified to him in the case of an inaccuracy.

In the event of fraud by the Insured or the Policyholder, the Insurer shall retain the full premium.

## • Cumulative insurances:

**Compensation cannot exceed the amount of the loss, regardless of when the insurance was taken out (article L.121-1 of the Code).**

**Within these limits, the beneficiary of the contract may obtain compensation for his losses by applying to the Insurer of his choice.**

The contribution of each of the Insurers is determined by applying to the amount of the loss the ratio existing between the indemnity that the Insurer would have paid if it had been alone and the cumulative amount of the indemnities that would have been payable by each Insurer if it had been alone.
